**Software Engineer**                                                    **July 2024 - Present**
*IT Idol Technologies*

In my role as a Software Engineer, I led the development of scalable web applications utilizing the MERN stack and Python. I designed and implemented RESTful APIs to improve performance and user experience. I conducted thorough testing and debugging to ensure reliability, collaborating with cross-functional teams to gather requirements and deliver impactful features.

**Associate Software Engineer**                                      **July 2023 - June 2024**
*IT Idol Technologies*

In this role, I contributed in developing web applications using PHP with Laravel, React, PostgreSQL, and Node.js. I collaborated with senior developers on user-friendly interfaces, participated in code reviews, and optimized database queries while engaging in agile practices like daily stand-ups and sprint planning.

**Content Writer**                                                                    **2022 - 2023**
